# BACKING & TOPPING

## STABILIZERS – BACKING & TOPPING

Stabilizers are crucial to the success of precision embroidery. The vast combination of fabrics and use requires the professional embroiderer to identify what works best for them in the most economical way. This is why PinPoint International offers a variety of high quality Backing, Topping and Specialty products. Our wet-laid non-woven products provide multi directional stability and consistent density, so there is no give in any direction. The benefit of wet-laid backing is to only use one layer per embroidery application. If the embroiderer needs multiple layers, just switch to a heavier weight backing. Our premium stabilizer products contain silicone to provide lubrication to the needle throughout the embroidery process.

## CUTAWAY BACKING

Cutaway is a non-directional foundation that stabilizes the material from shifting during the embroidery process. Variables such as material, stitch count and design will impact which cutaway to use. See Stabilizer Reference Guide on page 1 for suggested applications. Available in Light, Medium and Heavy weight densities and stocked as die-cut sheets, perforated rolls and full size rolls.

### 2.0 OZ. WHITE CUTAWAY – MEDIUM BACKING

Use on light to medium weight fabrics and knits. Designs with low to medium stitch counts.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE

# TEARAWAY BACKING

## TEARAWAY BACKING

Tearaway is the most versatile of stabilizers. It can be used individually, layered or added with a cutaway. Primarily, tearaway is used when you want a crisp, clean edge on the back side of the embroidery design; such as on towels. Our product provides stability with no give in any direction and tears away easily and cleanly. Available in Light, Medium and Heavy weight densities and stocked as die-cut sheets, perforated rolls and full size rolls.

### 1.5 OZ. WHITE TEARAWAY – LIGHT BACKING

Use on stable fabrics with low stitch counts.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
15" x 25 yards	PPIT15 15X25	\$ 18.95
7.5" x 7.5" - 500 sheets	PPIT15 7.5X7.5-500	\$ 23.50
7.5" x 7.5" - 1000 sheets	PPIT15 7.5X7.5	\$ 36.50
12" x 25 yards	PPIT15 12X25	\$ 17.95
46" x 250 yards	PPIT15 46X250	\$185.00

### 1.5 OZ. WHITE TEARAWAY – SOFT-TEAR BACKING

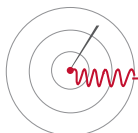

Designed to have more body; Soft-Tear offers more structure without having to move to a cutaway. Use on dress shirts, oxfords, polos and structured jackets with low to medium stitch counts

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
46" x 250 yards	PPIT15S 46X250	\$195.00
60" x 250 yards	PPIT15S 60X250	\$235.00
7.5" x 8" - 500 sheets	PPIT15S 7.5X8-500	\$ 23.50
7.5" x 8" - 1000 sheets	PPIT15S 7.5X8	\$ 36.50

### 1.5 OZ. BLACK TEARAWAY – MEDIUM BACKING

All-purpose tearaway. Use on medium to heavy weight fabrics and knits. Designs with light to medium stitch counts.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
7.5" x 7.5" - 1000 sheets	PPIT15BL 7.5X7.5	\$ 42.00
23" x 100 yards	PPIT15BL 23X100	\$ 52.00
46" x 250 yards	PPIT15BL 46X250	\$245.00

# TEARAWAY BACKING

## 1.8 OZ. WHITE TEARAWAY – MEDIUM BACKING

Most widely used all-purpose tearaway. Use on medium to heavy weight fabrics and knits. Designs with light to medium stitch counts.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
6" x 6" - 500 sheets	PPIT18 6X6-500	\$ 16.50

23" x 125 yards	PPIT18 23X125	\$ 57.50
46" x 250 yards	PPIT18 46X250	\$192.50

## 2.0 OZ. WHITE TEARAWAY – MEDIUM BACKING

Use on medium to heavy weight fabrics and knits. Designs with medium to high stitch counts.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
8" x 8" - 500 sheets	PPIT20 8X8-500	\$ 35.00
8" x 8" - 1000 sheets	PPIT20 8X8	\$ 59.50
19" x 100 yards	PPIT20 19X100	\$ 44.95

### TIPS OF THE TRADE

- TIP 1** The lighter the fabric, the heavier the backing.
- TIP 2** Cutaway will provide more stability than tearaway.
- TIP 3** Pair a piece of light weight tearaway with No Show on light weight fabric.
- TIP 4** No Show is a must for all light colored fabric.
- TIP 5** Use Solvy to keep embroidery stitches elevated.

# SPECIALTY BACKING & TOPPING

## SOLVY

Use on all high pile fabrics and knits. This light weight film holds down the nap of the material preventing the stitches from sinking into the fabric. The result allows the embroidery to stand up over the high pile of the fabric. The water soluble topping is easily removed by steaming or lightly misting the surface and blotting with a dry cloth. Ideal for terrycloth, fleece, performance wear, velvet, velour, corduroy or any reversible fabric. Use on all stitch count designs. Available in a variety of perforated rolls and full size rolls.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
6" x 6" x 110 yards-Perforated	SOLVY 6X6X110	\$ 24.95
8" x 8" x 110 yards-Perforated	SOLVY 8X8X110	\$ 34.95
10" x 10" x 110 yards-Perforated	SOLVY 10X10X110	\$ 36.50
40" x 110 yards	SOLVY 100M 40X110	\$110.00

## NO SHOW CUTAWAY

Used primarily on light weight, light colored fabrics, knits and performance wear. This translucent, soft and stable cutaway is ideal for left chest logos, pique knits, T-shirts, microfiber and infant/children's wear and accessories. Minimizes show-through of cutaway around embroidery on light colored fabrics as well as providing a softer and more comfortable backing next to skin. The diagonal weave adds to the stability of this light weight, sheer cutaway. Use on designs with low stitch counts or combine with a medium weight tearaway for medium to heavy stitch counts. Available in die-cut sheets, perforated rolls and full size rolls.

### 1.5 OZ. WHITE NO SHOW CUTAWAY – LIGHT BACKING

# SPECIALTY BACKING & TOPPING

08

## PRESS & TEAR

Use to stabilize thin, stretchy, light weight or loose woven fabric and knits. Designed for materials too large or small to be hooped; also provides stability for difficult to clamp or hoop items. The needle friendly adhesive backing holds material when hooping, stabilizes item through the embroidery process and tears away easily and cleanly in all directions. Good for shirt collars, cuffs, back of hats, lace, fleece and other difficult to hoop materials. Use on designs with low stitch counts or combine with a medium weight tearaway for medium to heavy stitch counts. Available in full size rolls.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
10" x 25 yards	PT 10X25	\$ 26.95
15" x 25 yards	PT 15X25	\$ 34.95
20" x 25 yards	PT 20X25	\$ 31.50

## PRESS & WASH

Use to stabilize thin, stretchy, light weight or loose woven fabric and knits. A fibrous water soluble stabilizer that washes away cleanly leaving a clean, crisp embroidery design front and back for softest feel and comfort. The needle friendly adhesive backing holds material when hooping, stabilizes item through the embroidery process and washes away easily and cleanly. Ideal for lace, fleece and "freestanding" embroidery. Use on designs with low stitch counts. Available in full size rolls.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
10" x 25 yards	PW 10X25	\$ 39.95

## H2O GONE

Use on light to medium weight fabrics and knits. Ideal for performance wear, lace, appliques, infant/ children's items and woven blankets. This backing is 100% water soluble and will dissolve in water with no residue. Use on designs with very low stitch counts.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
12" x 25 yards	TP500 12X25	\$ 34.95
15" x 25 yards	TP500 15X25	\$ 36.95

# SPECIALTY BACKING & TOPPING

## CLOUD COVER

Fuse Cloud Cover with any fabric or knit as a liner over the back of a finished embroidery design to prevent scratchy irritation to skin. This soft, sheer and multi-directional stretch mesh will bond with your fabric when using a moderate temperature. Use on infant/children's wear and accessories. Available in black and white full size rolls.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
12" x 10 yards - WHITE	CS4600 12X10	\$ 19.95
12" x 10 yards - BLACK	CS4600BL 12X10	\$ 19.95

## WOVEN BACKING

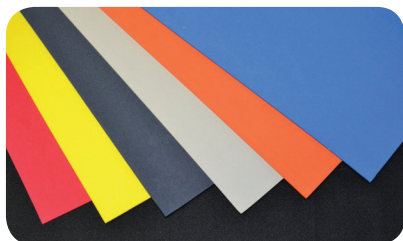

This medium weight backing is a true woven cutaway. The tight weave provides for excellent stitch definition and detail on delicate or thin stretchy fabrics, polos, infant and children apparel. Especially suited for moisture wicking performance wear products. Available in die-cut sheets.

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
7" x 7" - 500 sheets	PPIWB2030 7X7-500	\$ 39.00
7" x 7" - 1000 sheets	PPIWB2030 7X7	\$ 59.95

## 3D FOAM 20" X 30" SHEET

Create a 3D effect to your embroidery. Predominately used on baseball caps, this easy to use 3D foam will add dimension to your design. Available in 2mm and 3mm thickness. Special digitizing is required for all designs and must use a satin stitch setting. Be creative with the special effects you can achieve!

SIZE / DESCRIPTION	PRODUCT NUMBER	PRICE
2mm Thickness, 20" x 30" sheet	2EF2(Color)	\$ 2.25
3mm Thickness, 20" x 30" sheet	3EF3(Color)	\$ 3.20

# THREAD & BOBBINS

## Robinson-Anton Embroidery Threads

A premier manufacturer of high performance embroidery thread. Robison-Anton thread is quality engineered to run smoothly on all high speed embroidery machines and utilizes unique processes, such as air-splicing, which eliminates knots and result in fewer thread breaks. Robison-Anton is the only company that processes and dyes Polyester and imported Rayon in one facility for optimum control. They also have a variety of threads that meet the stringent MADE IN THE USA specification requirements. As a global leader in consumer safety, Robison-Anton ensures their Rayon and Polyester products meet the Oeko-Tex® Standard 100 certification which is paramount in infant & children's products and apparel.  

### SUPER BRITE POLYESTER®

## COOL-SEW® NEEDLES

The COOL-SEW finish on needles creates a “non-stick” surface on the needle and inside the needle’s eye. This alleviates the sticky build up that arise from synthetic threads and materials. COOL-SEW needles are ideal for sewing through vinyl, synthetics, chemically treated materials, glued materials, rubberized goods, nylon, foam, dense materials and with synthetic threads.

## PD PERFECT DURABILITY NEEDLES

PD (Perfect Durability) needles have a layer of Titanium Nitride on the needle surface to extend the productive life by as much as five times that of conventional needles. PD Titanium coated needles are significantly stronger than other needles while maintaining elasticity. This reduces needle breakage, bending and distortion. PD’s strengthened point has been reinforced while maintaining a perfect shape to provide greater wear resistance and durability.

# TOOLS & SUPPLIES

As the world's oldest and largest manufacturer of garment steamers and steamer equipment for personal and professional use, Jiffy® Steamer manufactures over 16 fabric steamers and clothes steamer models, with only the finest industrial and professional components available.

## JIFFY STEAMERS

DESCRIPTION	PRODUCT NUMBER	PRICE
Jiffy Steamer 2000 <i>Standard Garment Steamer (One Gallon Reservoir)</i>	J-2000	\$219.00
Jiffy Steamer 2000M / Metal Head <i>Standard Steamer with Metal Head</i>	J-2000M	\$239.00
Jiffy Steamer 4000 Pro-Line <i>Commercial Steamer with Water Level Sight Gauge. 1.5 Hours of Steaming per Fill</i>	J-4000	\$309.00
Jiffy Steamer 4000M Pro-Line / Metal Head <i>Pro-Line Commercial Steamer with Metal Head</i>	J-4000M	\$329.00
Jiffy Steamer Liquid Cleaner <i>Three 10 oz. Bottles</i>	J-0899	\$ 19.95

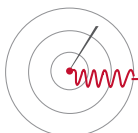

## J-4000 PROFESSIONAL SERIES

The J-4000 Pro-Line Series is Jiffy® Steamer's most powerful model designed for commercial purposes. This steamer has a durable die cast aluminum outer housing unit with a built-in, easy-to-read water level sight gauge. The J-4000 is equipped with a 5 ½ foot hose with a plastic or metal steam head and handle and a 1 gallon self-contained water tank with preheat and steam settings. The J-4000 offers convenient preheat and steam settings which allow you to have steam on demand. The unit heats up within 15 minutes to preheat temperature and produces steam within 2 minutes once at the preheat temperature. 1.5 hours of steaming per fill.

## HOOPS

Professional embroiderers are challenged by the extensive variety of hoops and hooping options which make selection crucial for successful and profitable embroidery results. Choose PinPoint International because we partner with the most innovative and leading hoop manufacturers in the embroidery industry.

Selecting the right hooping method and how well you hoop your material will impact your finished product and may directly affect your bottom line.

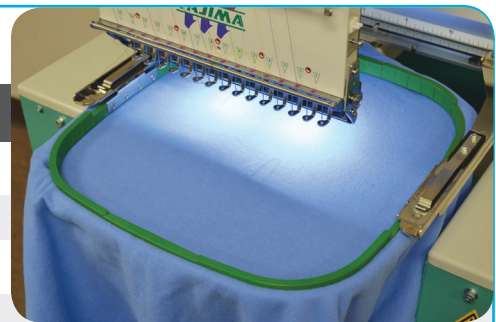

Check out our tips below to assist with hooping techniques.

## TIPS OF THE TRADE

- TIP 1** Choose the smallest possible Hoop or Frame to accommodate the design. Creates even tension and keeps the design properly registered.
- TIP 2** Leave 1/2 inch clearance around the design for the presser foot.
- TIP 3** For the best uniform grip and tight registration of material, use a round hoop whenever possible.
- TIP 4** Adjust the outer hoop correctly before pressing in the inner hoop. If the outer hoop is loose or tight remove inner hoop and start over. Try not to adjust the outer hoop once the inner hoop is inserted.
- TIP 5** Double-height hoops provide more gripping surface for thicker or slippery fabrics.
- TIP 6** Fabric tension in the hoop should be taut. Run your finger across the fabric to check for slack or loose tension.
- TIP 7** Be sure to take advantage of all the easy to use features and time-saving benefits of your hoops.

## HOOP SELECTION CHART

SIZE	COMMON USAGE
9 cm	Cuffs, Collars, Pockets, Hat Sides
12 cm	Small Left Chest Shirt, Hat Backs, Hat Sides
15 cm	Standard Left Chest Shirt
18 cm	Large Left Chest Shirt, Small Jacket Backs
15 cm x 15 cm	Small Jacket Backs, Back Packs, Tote Bags
24 cm x 24 cm	Children's Clothing, Square Designs - that round hoops cannot accommodate
30 cm x 15 cm	Narrow and Long Embroidery on Sleeves, Pant Legs, Shirt Yoke and Bags
335 mm x 329 mm	Large Designs, Jacket Backs, Adult Full Front Embroidery
410 mm x 300 mm	Extra-Large Designs, Jacket Backs

## ALLIED GRID-LOCK™ HOOPS

Allied Grid-Lock's highly engineered tubular hoops are innovative and unique. The user friendly features of grid lines and markings on the hoops enable the embroiderer to precisely align and confirm the hoop positioning prior to embroidering. Grid lines on the hoop arms and markings on the top face and vertical walls of inner hoop help to secure proper positioning of hooped materials, therefore improving productivity and profitability by eliminating mistakes and reducing cost.

The Premium Allied Grid-Lock Tubular Hoops listed below fit Tajima, Brother, Toyota & Renaissance Embroidery Machines with a 360 sewing field. All Grid-Lock Hoops are Double Height.

SIZE METRIC	DESCRIPTION	INNER HOOP DIMENSION	FRAME WIDTH ARM TO ARM	PRODUCT NUMBER	PRICE

15 cm	DEFRO 15	15 cm Freedom Ring - Outer Ring	\$ 49.95

Use the Freedom Outer Ring to replace the Outer Ring of your existing Allied, Durkee, Happy, Melco, SWF & Tajima Hoops.

## INNER/OUTER HOOPS & SPIDER FRAMES

Used in Flat table top embroidery. Flat embroidery is sewn with a spider hoop setup. When cut pieces of material are embroidered, the adjusting outer and inner rings hoop the material and then are inserted into a Spider Frame which attaches to the embroidery machine for sewing. Inner/Outer Hoops can also be used as replacement rings for Tubular Hoops.

## MIGHTY HOOP™ BY HOOPMASTER™

The magnetic force of the Mighty Hoop makes hooping easy. The Mighty Hoop pulls itself together without a lot of force, reducing stress on wrists and arms. The magnetic hoop automatically adjusts to material thickness and greatly reduces hoop burn on delicate fabrics. Compatible with the HoopMaster Hooping Station. Strong Magnet Warnings Apply. Mighty Hoops are proudly MADE IN THE USA

# HOOPS, FRAMES & CLAMPING SYSTEMS

## HOOPMASTER™ HOOPING SYSTEM

Increase productivity, accuracy and quality with the HoopMaster Hooping System. The patented features of this system makes hooping easy to learn, faster to use and achieve more consistent results. The HoopMaster is custom made to your hoops so there is no hardware to adjust. The fixture arms hold the tubular hoops perfectly square with the worksurface and directly over the lower ring. Self-aligning pins allow for fast and accurate placement when changing embroidery location or hoop size. Number and Letter grids assist to document embroidery placement for repeat orders. Simple in design and built to withstand the commercial environment. HoopMaster products are proudly MADE IN THE USA 

### HOOPMASTER HOOPING SYSTEM KITS

# HOOPS, FRAMES & CLAMPING SYSTEMS

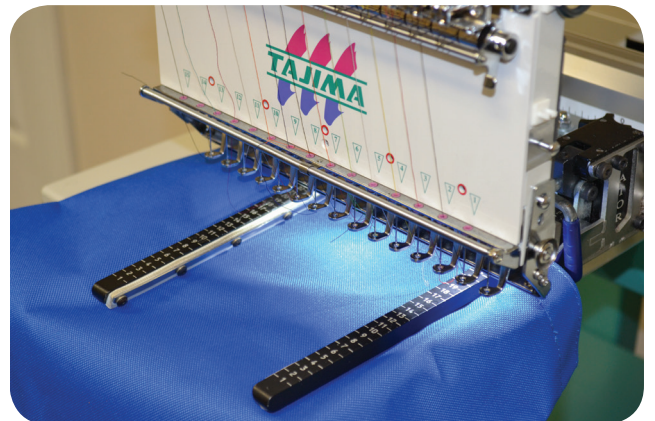

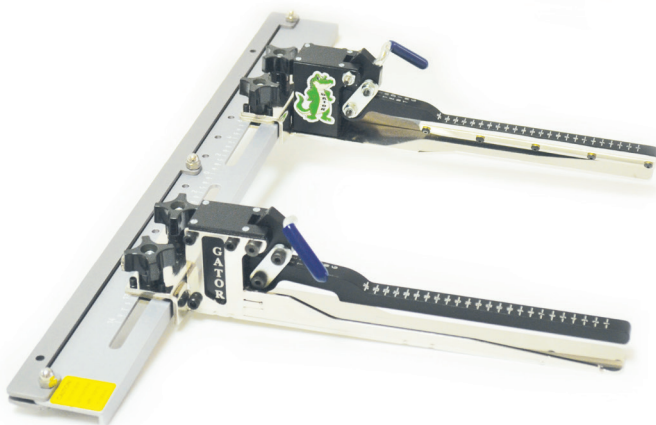

## GATOR CLAMPING SYSTEM For use on single head embroidery machines only.

The Gator Clamp is simple, strong and efficient to use. The adjustable sliding arms allow a wide variety of embroidery positions up to 13 inches wide. The patented grip pad will hold any material as thin as a sheet of paper up to ¼" thick. The grip pad is designed to let the operator pull the material away from the sewing field but will not allow the material to slip back, therefore keeping the material tight for embroidery. Use on bags, totes, blankets, towels, pants, shirts and many other materials. No tools are required for mounting, just remove the sewing arms and replace with the Gator Clamp. The Gator Clamping system is simple in design and function but is engineered to withstand the commercial environment. Gator products are proudly MADE IN THE USA 

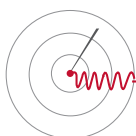

PRODUCT NUMBER	DESCRIPTION	PRICE
GATOR CLAMP STD	Gator Clamp for Tajima, SWF Standard, Toyota 9000 & 9100	\$850.00
GATOR CLAMP SWFCMPT	Gator Clamp for SWF Compact	\$850.00

# HOOPS, FRAMES & CLAMPING SYSTEMS

## SHOE CLAMP

A specialty rail mounted clamp with a single window for embroidery on shoes. The clamp firmly holds the alignment of the shoe sides or tongue for embroidery. The sewing field is limited to shoe size, design, location and machine sewing arm. Personalize athletic shoes, gym shoes, boots, UGG™ boots, slippers and other hard to hold items. Shoe clamp utilizes the same adapter brackets as the Slim Line 1 Clamping System. **MADE IN THE USA** 

PRODUCT NUMBER	DESCRIPTION	PRICE
PPISC 2.75X1.75(MFG)	2.75" x 1.75" Shoe Clamp with Adapter Bracket	\$389.95
PPISC 3.5X1.75(MFG)	3.5" x 1.75" Shoe Clamp with Adapter Bracket <i>(Specify Machine When Ordering)</i>	\$414.95

## PR 600-1 CLAMPING SYSTEMS

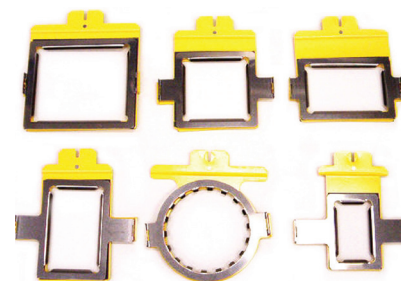

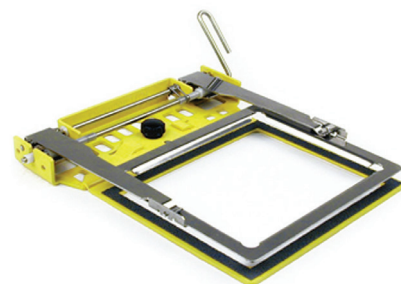

**For use on single head embroidery machines only.**

The lowest profile clamping system on the market, the PR 600-1 was designed for the Brother PR 600 Series. Can also be used on the Brother 620, 650 1000 and Babylock models. The unit attaches directly to the drive bar/drive rail of the embroidery machine. The clamp stays on the machine while preparing or removing embroidery items. Changing window sizes is quick and requires no tools. A single lever opens, closes and locks the clamp. The spring loaded clamp automatically adjusts to fabric thickness. Use on purses, lunch bags, knit caps, Christmas stockings, straps, pockets and other smaller, hard to hoop items. **MADE IN THE USA**

# HOOPS, FRAMES & CLAMPING SYSTEMS

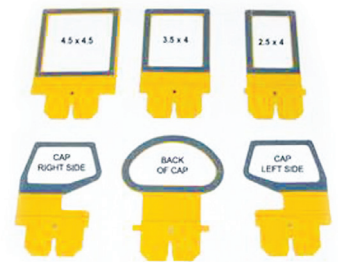

## ICTCS 1 & 2 CLAMPING SYSTEMS For use on multi-head or single head embroidery machines.

The Interchangeable Tubular Clamping System (ICTCS) was designed with a variety of window sizes for hard to hoop items. The base unit mounts to the machine using tubular arms. The clamp stays on the machine while preparing or removing embroidery items. Changing window sizes is quick and requires no tools. A single lever opens, closes and locks the clamp. The spring loaded clamp automatically adjusts to fabric thickness, bulky seams and zippers. Use on Carhartt® Jackets, leather goods, luggage, backpacks, computer bags, briefcase, towels, blankets, rugs, flaps, straps, canvas and bags of all types and other hard to hoop items. **MADE IN THE USA**

## SLIM LINE 1 & 2 CLAMPING SYSTEMS For use on single head embroidery machines only.

The Slim Line base unit attaches directly to the drive bar/drive rail of the embroidery machine. The clamp stays on the machine while preparing or removing embroidery items. Changing window sizes is quick and requires no tools. Window sets come as a 3 piece set including 1 base plate adapter and 2 top windows; one window for thin material and one for heavy-duty material. A single lever opens, closes and locks the clamp. The spring loaded clamp automatically adjusts to fabric thickness. Use on purses, lunch bags, knit caps, Christmas stockings, straps, pockets and other smaller, hard to hoop items. Mounting adapters are available for most major embroidery manufacturers and machine types. **MADE IN THE USA**

## BOBBIN CASES

Bobbin Cases can be ordered in two sizes, **Standard Style L** and **Jumbo Style M**. **Style L** is the most widely used bobbin case and is available with or without anti-backlash springs. The larger **Style M** is offered with or without a Pigtail and only available with the anti-backlash spring. Some embroiders prefer to use bobbin cases with anti-backlash springs when winding stocked thread on aluminum bobbins. Bobbin cases not only hold a bobbin but provide tension to the bottom thread. Always load bobbins to turn clockwise, set bobbin tension, insert into rotary hook and latch into place.

### STANDARD STYLE L SIZE

## TIPS OF THE TRADE

### Bobbin Tension Gauge

Make your embroidery process more efficient by setting your bobbin tensions ahead of time. Use the Bobbin Tension Gauge once a week to set your bobbin cases for consistent thread tension so you can easily move from one project to another without having to stop and recalibrate your bobbin cases.

**Thread Tension Gauges** are used predominately to set the upper thread tension for each machine needle. Make sure to re-adjust tensions when switching between Polyester or Rayon as well as other thread types.

BOBBIN TENSION GAUGES & THREAD TENSION GAUGES are located in the TOOLS & SUPPLIES section of our catalog.

# MACHINE PARTS

## ROTARY HOOKS

All high speed industrial embroidery machines have a rotary hook. Rotary Hooks are available in three types, Standard L, Jumbo M and Elliptical E with either a Steel or Teflon® basket. The Rotary Hook Assembly helps to maintain proper thread tension and uniform stitching.

### STANDARD L HOOKS

PRODUCT NUMBER	MANUFACTURER	DESCRIPTION	UNDERTRIMMER	PRICE
KHS12-RY	KOBAN*	Rotary Hook, Steel Basket	No	\$35.75
KHS12-RYP	KOBAN*	Rotary Hook, Steel Basket	Yes	\$42.75
KHS12-RYPNW	KOBAN*	Teflon® Rotary Hook	Yes	\$58.00

### JUMBO M HOOKS

PRODUCT NUMBER	MANUFACTURER	DESCRIPTION	UNDERTRIMMER	PRICE
KHS20-RYP	KOBAN*	Jumbo Rotary Hook, Steel Basket	Yes	\$ 95.00
KHS20-RYPN	KOBAN*	Teflon® Jumbo Rotary Hook	Yes	\$110.00
SA3669001	BROTHER	Brother Jumbo Rotary Hook	Yes	\$236.50

### ELLIPTICAL E HOOKS

PRODUCT NUMBER	MANUFACTURER	DESCRIPTION	UNDERTRIMMER	PRICE
ME0505E20AMQ	HIROSE*	Standard E Hook, Steel Basket	Yes	\$ 74.95
MEC505E200T0	TAJIMA	Tajima Jumbo E Hook	Yes	\$195.00

\*Original equipment manufacturer for Tajima, Barudan, Brother, Happy & Toyota

### ROTARY HOOK MAINTENANCE TIP

A mineral oil-based lubricant designed for embroidery machines, like HOOK WASH, is used to clean the rotary hook and various assembly parts. It is a once-a-week application to flush and clean, and it is used whenever any tune-up is necessary on your equipment. Cleaning reduces thread breakage and removes dirt, lint, spray adhesive and other debris or residue. The lubricant repels water and protects metal parts from moisture. The rotary hook should be oiled every four hours of operation.

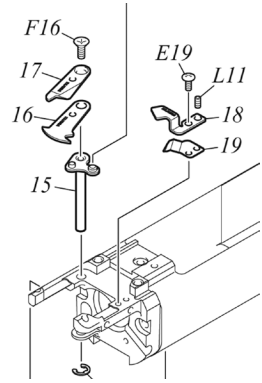

HOOK WASH can be found in the TOOLS & SUPPLIES section of our catalog.

# MACHINE PARTS

## MACHINE EQUIPMENT & TECHNICAL CONSULTATION

PinPoint International highly recommends working with your embroidery machine Manufacturer or Independent Field Technician for trouble shooting or on-site repair of embroidery machines. **Have your Service Technician provide you with a list of machine parts needed for your repair and PinPoint International will have your parts sent to arrive for your service appointment.**

## TECHNICAL CONSULTATION & REPAIR

PinPoint International is known for our extensive industry knowledge & experience.

We can provide the following services:

- Consultation and Technical Assistance to Trouble Shoot Problems with your Embroidery Equipment & Machine; Service Charges May Apply
- Electronic / Circuit Board Repair\*
- Cap Frame Repair (Wide & Semi-Wide)\*

*\*Requires items to be sent to PinPoint International for technical evaluation and repair.*

## EQUIPMENT & MACHINE REPAIR

- Machine Repair on Most Major Brands
- Preventative Maintenance & Refurbishment
- All Maintenance and Repair Cost are Subject to Individual Service Requirements, Including Time and Travel
- Machine Repair & Maintenance Available in Limited Regional Area
- Call for our Service Area or Field Technician Referral

## SELLING YOUR EMBROIDERY MACHINE?

**If you are upgrading your equipment or decide your machine is too costly to fix...**

Contact our technicians at PinPoint International to see if your machine is eligible for the PinPoint Purchase Program.

Provide us with your Machine Model, Supplemental Equipment, Parts, Condition and Regional Location.

Unfortunately not all machines or parts qualify for this program. Restrictions apply.

## TAJIMA EMBROIDERY MACHINE REFERENCE GUIDE

PinPoint International has charted a reference guide on the most commonly used Tajima embroidery machine parts. The guide contains specific Tajima models and the most requested parts for the machines.

**For your convenience the pages can be detached for ease of access.**

## TERMS AND CONDITIONS

**RETURN OF MERCHANDISE** PinPoint International (PPI) will accept a return for credit or refund with an approved RMA authorization for a period within 45 days from date of shipment. Merchandise received after this period will be subject to a 15% restocking fee. Special Orders items are considered "Final Sales" and are non-refundable.

The Customer is responsible for packaging and shipping charges incurred for all returned items.

Only items deemed to be in new and unused condition, or under warranty, will receive credit. Items that do not qualify will be returned to the Customer, at their expense, and no credit will be issued.

**SHIPPING** PPI will make carrier selection based on current rates, reliability, and transit schedule. FOB Origin. Should the customer request alternate transportation, the customer will assume all liability. PPI is not responsible for shipping delays or

delivery due to causes beyond our control. We reserve the right to withhold shipments to customers whose accounts are not in good standing. COD orders are subject to an additional UPS standard fee. All COD orders will be shipped UPS.

**CREDIT TERMS** PPI open credit terms are Net 30 days. Terms are subject to credit approval. Accounts not in good standing are subject to possible suspension of net terms. Please speak to your Account Representative for more information.

All returned checks will be assessed a \$20.00 service charge.

PPI is responsible to charge Missouri sales tax on sales shipping within our state, unless a tax exempt certificate has been received prior to initial shipment.

For complete information on Terms and Conditions, please visit our website at: [www.pinpointinternational.com](http://www.pinpointinternational.com)
